

Parrot MKi9100 and MKi9200 Bluetooth Kits

The Parrot MKi systems are a unique range of Bluetooth hands free car kits which has been designed to fit all vehicles and are universally compatible with most brands of phones on the market today. The Parrot MKi9100 and MKi9200 Bluetooth car kits are designed to integrate perfectly into your vehicle.

The Parrot MKi9100 and MKi9200 automatically synchronizes the names and phone numbers in your mobile with their phonebooks and updates each time a new entry is detected. Both kits have voice recognition and allow you to directly access the phonebook and browse all the names thanks to the voice synthesis, (text to speech). When you receive a call, the name and the number are displayed on the screen.

The Parrot MKi9100 and MKi9200 also come with cables designed to adapt to any sort of digital and analogue music players. Supplied with the kit is an iPod/ iPhone connector, a USB connector to plug any USB MP3 player in and a Line-In input for analogue sources. The MKi9100 and MKi9200 also connect to any Bluetooth stereo (A2DP) source, MP3 player, Music phone, Smart phone, or PDA.
